

SECOND LOOK

BRAND IDENTITY & DIGITAL ASSET SYSTEM

You saw the game. Here's what you missed.

DESIGNED FOR EXPLAINABLE FOOTBALL INTELLIGENCE

VERSION 1.0 / OCTOBER 2026

Brand foundation

The idea behind the identity.

BRAND PROMISE

**Make the important
parts of a match easier
to notice and
understand.**

See the pattern. Inspect the evidence.

POSITIONING

**The intelligent second screen for people who
want more than a score.**

PERSONALITY

Observant. Confident. Clear. Curious. Evidence-led.

VOICE

Explain what the data shows, not what it cannot prove. Avoid
manufactured drama and unsupported certainty.

Logo architecture

Two offset perspectives. One moment brought into focus.

PRIMARY ON DARK

ALTERNATE ON LIGHT

Clear space: at least 1/2 the height of the symbol on every side.

Minimum sizes: icon 24 px digital; horizontal lockup 150 px digital.

Do not stretch, recolor, rotate, outline, shadow, or overlay the mark on busy backgrounds.

Color system

Night-mode clarity with selective signals.

MIDNIGHT

#071320

Core background

NAVY

#0C1C2F

Caution / highlights

Typography & interface

Fast to scan. Easy to understand.

PRIMARY TYPEFACE

Inter

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz 0123456789

Display 48-64 / Headline 28-36
Body 15-17 / Labels 11-13

LIVE INSIGHT

City winning the ball higher

Three recoveries in the attacking third have led to two shots.

SYSTEM RULES

8 px spacing rhythm. 16 px card radius. Clear active states. Keep blue for actions, green for validated signals. Never rely on color alone.

Graphic language

THE GAME BEHIND THE SCORE.

YOU SAW THE GAME. HERE'S WHAT YOU MISSED.

AI-POWERED MATCH INTELLIGENCE

VISUAL RULES

Use pitch diagrams to show the events supporting each insight.

Blue = sequence events. Green = event in focus. Slate = structural pitch lines.

Motion must follow real synthetic event timestamps. Do not imply tracking data that does not exist.

Digital asset library

INCLUDED

SVG lockups and symbol / PNG logos / favicon.ico / favicon.svg / Apple touch / PWA icons / maskable icon / Safari mask / LinkedIn / YouTube / Instagram / tokens / Next.js metadata.

Implementation checklist

A consistent identity in every product surface.

- 01 BRAND** Use the horizontal lockup for navigation. Use the symbol alone for small square destinations.
- 02 METADATA** Set Open Graph image at 1200 x 630; X uses `summary_large_image`. Provide alt text.
- 03 APP ICONS** Serve `favicon.svg`, `favicon.ico`, `apple-touch-icon.png`, manifest icons and maskable icon.
- 04 UI TOKENS** Use the supplied color variables, Inter weights, spacing and radius values.
- 05 TRUST** Show event evidence for insights. Reserve green for verified facts, not generic success.
- 06 VERIFY** Test mobile link previews, light-background logo, app icon crop and metadata URLs.

NOT A TRADEMARK CLEARANCE REPORT. Check commercial availability before launch.
